

HuskyCT User Guide: Downloading HuskyCT Assignments

This process, which starts in the Grade Center, will zip together all the original submissions so they can be downloaded all at once and viewed offline. This method can also be used for archiving assignments.

Downloading all submitted assignments from the Grade Center

This option can be used to download all submissions at once for a particular assignment, regardless of whether the students submitted files created outside HuskyCT or they typed in the text box.

In "Full Grade Center", click on the option arrow to the right of the title of the assignment column. Choose the option "Assignment File Download."

Select all by checking the box to the left of "Name" at the top or check off individual names in the list.

This will give a zip file that contains the original documents submitted plus .txt files that contain any student entered comments as well as the content for submissions typed directly into the text box.
