

HuskyCT User Guide: How to Ignore, Clear, or Allow Additional Assignment Attempt

Step 1: Access "View Grade Details" screen for a student's attempt(s)

In "Full Grade Center", find the column for the assignment, click on the gray down arrow icon next to the "Needs Grading" icon for a student's submitted attempt, and then click on the "View Grade Details" option

Submitted attempts appear here in reverse chronological order, with the most recent attempt at the top

Ignore Attempt: Retains the submission but removes the grade from the grade center for already graded attempts or removes the "Needs Grading" icon for ungraded attempts. The "Ignore" action can be reversed.

Clear Attempt: Permanently removes the submission. After you click "Clear Attempt", you will need to confirm deletion

Ignore Attempt: Can be used when a student has submitted all their attempts and you do not want to use the Clear Attempt or Ignore Attempt option.

This user has submitted the maximum number of attempts allowed for this assignment. You may allow this student to submit an additional attempt. Alternatively, you can mark an existing attempt as Ignored (Ignored Attempts are not counted against the maximum number of attempts).

Allow
Additional
Attempt

NOTE: To view an attempt before deciding to Clear or Ignore, you can use the "Grade Attempt" option or click on "View Attempts" at the top of the screen
