

## Kaltura User Guide: Sharing Videos in Kaltura My Media

This document covers instructions about sharing a video from your My Media to HuskyCT (p. 1-3) or outside HuskyCT (p. 3).

**You can either push (Publish) or pull (Embed) a video to HuskyCT.**

**Publish a Video:** If you publish, you cannot control where the video is located in HuskyCT. It will be shared using the HuskyCT tool called Media Gallery. Students will be able to make comments on the videos if you allow it as well as download videos if this option is turned on. The downloading video option is turned off by default.

To publish, click on the video and then click on Edit – Publish.

The screenshot shows a video player interface. At the top left, there are buttons for 'Details' and 'Share'. Below these, it says 'No description provided' and 'Tags'. There is a 'Comments' section with an 'Add a Comment' input field. On the right side, there is an 'Actions' dropdown menu. The menu items are: 'Edit', '+ Publish' (highlighted with a red box), 'Analytics', '+ Order Captions', '+ Caption Requests', 'Launch Editor', and 'Delete'. There is also a 'Back' button next to the 'Actions' dropdown.

Then turn on the Published option and you will be shown all the courses you teach or taught. Click on the course(s) to share the video. Then click Save. Be sure to add the tool Media Gallery to your course so students can see it.

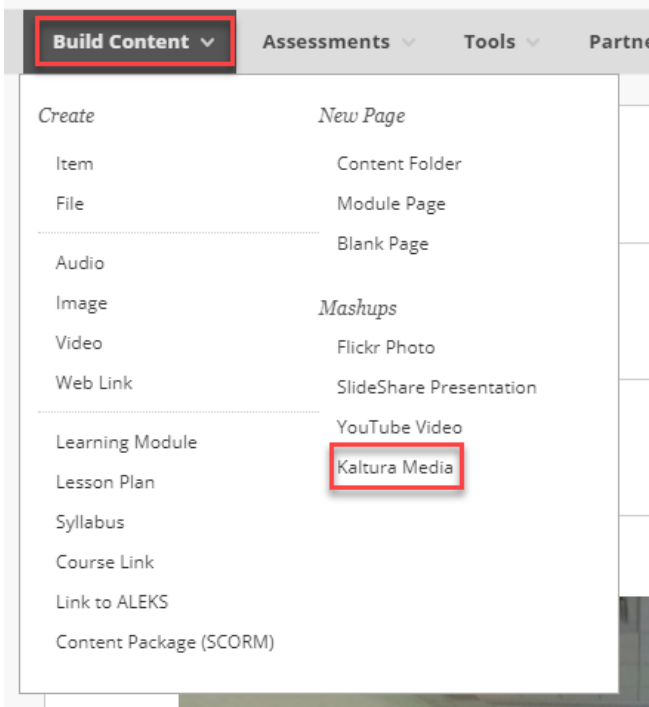

You can publish the media to multiple media galleries.

- Private - Media page will be visible to the content owner only.
- Published - Media page will be visible to individuals according to entitlements on published destinations
